

|| Whatever success I have enjoyed in my varied areas of work I totally owe to Moholy:Nagy's inspiration and to the Bauhaus philosophy. The Universal Truths that were revealed to me are as valid and as vital today as they were over fifty years ago when they were conceived. Their catholic relationship to man and to his visual world have even a greater importance today than perhaps any other period in the history of man. Angelo Testa ||

ANGELO TESTA

40 years as a designer / painter / weaver

April 13, to May 6, 1983

College of Architecture, Art
and Urban Planning Gallery
University of Illinois at Chicago
